

# Southern Regional Meeting Abstracts Subject Index

## A

- Abdominal wall hematoma, following paracentesis, case report, 549
- Abscesses, presented with severe recurrent intermittent chills, case report, 571
- Acid-inducing diet, lower impact on acid retention (AR) associated with reduced GFR, 387
- impact on urine endothelin-1 excretion (UET-1V), 388
- Acid retention (AR), associated with reduced GFR, impact of lower acid-inducing diet, 387
- Acquired amegakaryocytic thrombocytopenia, case report of, 145
- Acquired Immunodeficiency Syndrome (AIDS), case report of, involving acquired factor IX inhibitors, 166
- Acute burn injury, dyshomeostasis of macro- and micronutrients in patients hospitalized with, 79
- Acute disseminated encephalomyelitis (ADEM), intravenous immunoglobulin (IVIG) therapy for, 18
- Acute dopamine depletion syndrome, case of, 12
- Acute esophageal necrosis (AEN), in end stage renal disease, case report of, 128
- Acute hemolytic transfusion reaction (AHTR), case report of, 559
- Acute inferior wall myocardial infarction (AIMI), and CAVB, PCI treatment for, 28
- Acute kidney injury (AKI) in cancer patients, study of incidence, risk factors and outcomes, 492
- prediction using tubular injury-based biomarkers, study, 493
- Acute promyelocytic leukemia (APL), clinical outcome treated at institution, 156
- Adiponectin relationship with psychosocial variables, 88
- role in autophagy and pathological cardiac hypertrophy, 395
- Adolescent vaccinations, study of factors associated with changes in, 292
- Adult T cell lymphoma/leukemia (ATLL), case report of, 147
- African Americans blood pressure (BP) variability from childhood to adulthood in, 84, 536
- clinical presentation of primary hyperparathyroidism (PHPT), 112
- comparative study of Body Mass Index (BMI) and Waist/Height Ratio (WHtR) with regards to CV risk factors, 411
- left ventricular (LV) geometric changes, impact of blood pressure (BP) levels in black young adults, 3
- man with end stage renal disease and uncontrolled hypertension, case report, 46
- relation of genetic variation with LV diastolic functions in hypertensive siblings of, 290
- relation of peripheral arterial tonometry (PAT) measurements with blood pressure in, 90
- secondary hyperparathyroidism in, with decompensated biventricular failure, 89
- Aging, mechanism of accelerated atherosclerosis in, 278, 317
- Aicardi-goutieres syndrome (AGS), clinical features of, 198
- AIDS bordetella bronchiseptica bacteremia in a patient with, case report, 557
- dilated cardiomyopathy (DCM) due to acute hepatitis in, case report, 194
- AIDS-related Non-Hodgkin Lymphoma (AIDS-NHL), role of selective protein kinase C  $\beta$  inhibition, 448
- Alcohol abuse chronic, impact on alveolar macrophage (AM) immune functions, 480
- stem cell antigen-1 (Sca-1) expression by Gr1+ cells and the affect of alcohol during bacteremia, 62
- Alcohol screening, evaluation of effectiveness of using standardized patients with review of videotapes and feedback in, 515
- Aldosteronism, impact of Zn<sup>2+</sup> supplement in, 276, 289
- Allergic fungal sinusitis (AFS), study of complications of, 308
- Allergic reactions, in children, emergency actions for direct therapy of, 65
- Allergic rhinitis patients, guidelines of patient care for, 66
- All-trans retinoic acid (ATRA), signaling mechanism and biological effects in the regulation of Npr1 gene transcription and expression, 100
- AL (primary) amyloidosis, clinical presentation of, 51
- Alveolar hemorrhage, in patients with hepatitis C and cryoglobulinemia, case report, 245
- American Society of Anesthesiologists screening questionnaire, for obstructive sleep apnea, 247
- Amniotic fluid (AF), role in protecting from necrotizing enterocolitis (NEC)-like injury, 333
- Ampullary adenomas, assessment of the outcomes of endoscopic papillectomy for, 338
- Anemia aplastic, management strategy with immediate matched sibling stem cell transplant, 165
- gastric hyperplastic polyp presenting as iron deficiency, study, 340
- renal non-uremic, study of hypoxic regulation of erythropoietin in, 485
- severe, massive transfusion protocol therapy for, 162
- ANG II-dependence of distal nephron sodium reabsorption, in Cyp11a1-Ren2 transgenic rats with inducible ANG II-dependent malignant hypertension, 251
- Angiotensin blockade, effects on glucose transporter 4 (GLUT4) and insulin receptor substrate 1 (IRS 1), 265
- Angiotensin II (Ang II) -induced oxidative stress, in wasted skeletal muscle, role of oxidases, 310
- mediated skeletal muscle atrophy, study of mechanisms linking Atrogin-1, MuRF-1 expression, and IGF-1 signaling in, 83
- receptor antagonist (ARB), hemodynamic effects of, 97
- role in altering cellular energy and skeletal muscle wasting, 398
- Apneic events, as symptoms in pyloric stenosis, 17
- Aquaporin 2 (AQP2) trafficking, role of the primary cilium in vasopressin mediated, 494
- Arrhythmias, atrial and ventricular in a man with hypertension, hypokalemia, hypomagnesemia and a metabolic alkalosis, case report, 33
- in patients with heart failure and cardiomyopathy, treatment options, 71
- in a woman with prolonged QTc, hypokalemia, hypomagnesemia and a metabolic alkalosis, case report, 30
- Arteriovenous carbon dioxide removal (AVCO2R), effectiveness in treatment of severe asthma, 229
- Asthma factors associated with receipt of recommended discharge care in hospitalized children with, 433
- identification of environmental triggers of, 372
- Atherosclerosis accelerated, mechanism in aging, 278, 317
- depression and psychosocial status associated with, 87
- AT1 receptor, role in VSMCs in vivo, in isolation, study, 271
- Atrial fibrillation (AF) effect on EF estimation, 92
- following burn injury, hypokalemia and hypomagnesemia in patients with, study, 311
- identification of factors predisposing to, 80, 314
- Atrioventricular reciprocating tachycardia, first episode of, 75
- ATV (all-terrain vehicle) related head injuries, case report of cranial impalement, 23
- Autism Diagnostic Observation Schedule (ADOS), validity study of, 294
- Autopsy blood culture, review of, collected from LSUHSC New Orleans, 354

## B

- B1a and B1b cells, of the peritoneal cavity (PEC), role in antibody specificity and affinity, 407
- Bacillus cereus meningo-encephalitis, with diabetes insipidus in a preterm infant, case report, 221
- Bacillus cereus sepsis, in premature neonate, case report, 184

- Baclofen poisoning, in a healthy 23 month-old boy, case report, 16
- Bacteremia (BAC)  
stem cell antigen-1 (Sca-1) expression by Gr1+ cells and the affect of alcohol during, 62  
study of HIV as a risk factor for, in hemodialysis (HD) patients, 270
- Bacterial colonization, role in tight junctions (TJ) expressions in the immature developing intestine, 376
- Bacterial pneumonia, inhaled steroids and innate defense against, 475
- Basal cell carcinoma (BCC), of the skin, pulmonary and axillary metastasis of, 527
- Bee stings, cerebral infarction and non-ST-segment myocardial infarction following, case report, 29
- Beta-blockers, physiological effect on cocaine abusers, 1
- Bilateral orchitis, in lupus/scleroderma overlap syndrome, case report of, 55
- Bipolar epicardial screw-in pacing, evaluation of sensing and pacing performance, 191
- Bleomycin, development of recurrent lung injury model using repetitive intratracheal (IT), 478
- Blood pressure (BP)  
assessment of control in ESRD patients, 256  
association with birth weight and effect of increasing age, 86
- Cyp11a1-Ren2 transgenic rats, with angiotensin (ANG) II-dependent hypertension, effects of acute direct renin inhibition with aliskiren in, 261  
effect of birthweight on, 535  
effects of intravenous (IV) and oral (PO) fat load in healthy, obese subjects, 324  
levels, impact on the left ventricular (LV) geometric changes in black and white young adults, 3  
pediatric blood pressure wheel, as a screening tool to detect abnormal BP in outpatient setting, 118  
relation of peripheral arterial tonometry (PAT) measurements with, in blacks, 90  
screening in pediatric primary care settings, study, 297  
strategies for reducing in diabetic nephropathy, 272  
variability from childhood to adulthood in blacks, 84, 536  
variability from childhood to adulthood in whites, 84, 536
- Blood transfusions  
lead (Pb) neurotoxicity in extremely low birth weight infants (ELBW) following, 219  
mercury poisoning in extremely low birth weight infants (ELBW) following, 222
- Blue Rubber Bleb Nevus Syndrome (BRBNS), case report, 190
- Bordetella bronchiseptica bacteremia, in a patient with AIDS, case report, 557
- BPD infants  
altered phase of respiration with swallow in, study, 225  
analysis of swallow-breath interactions (Sw-Br) during nonnutritive suck (NNS) in, 470
- Brain natriuretic peptide (BNP)  
plasma levels, in hospitalized patients with and without preserved ejection fraction, 91  
role as a biomarker of central congestion along with atrial and/or ventricular distention, 397
- Breast cancer  
ER-PR+, prognosis and outcome of, 452  
screening, effective strategies to increase initial and repeat, among women cared for in FQHCs, 436
- Breast conserving surgery (BCS), study of influencing factors in re-excision rates of, 446
- Burn injury  
effect of estrogen therapy on IL-1 $\beta$ , IL-6, IL-10 and TNF- $\alpha$  levels in the pancreas, 483  
estrogen therapy to reduce lung inflammation, study, 477
- 
- C**
- 
- Candida endocarditis, aortic valve risk factors in, 174
- Cardiac amyloidosis, case report, 31
- Cardiac anomalies, associated with a right atrial diverticulum presenting as a wide complex tachycardia, case report of, 73
- Cardiac sarcoidosis, among African American population, report, 15
- Cardiac syndrome X (CSX), study of significance of impaired coronary vascular reactivity (CVR) in, 402
- Cardiomyopathy  
case of dilated, as an initial manifestation of hypoparathyroidism in an infant, 24  
in children, unusual manifestations and complications of, 206
- Carotid intima-media thickness (IMT), associated with serum phosphorus levels, in asymptomatic young adults, 85
- CD4 T-lymphocytes, molecular abnormalities in Non-Obese Diabetic (NOD) mice, 331
- Central nervous system, life-threatening demyelinating disease involving, case reports, 5
- Cerebral infarction, and non-ST-segment myocardial infarction, following bee stings, case report, 29
- Cervical artery dissection, risk-benefit ratio of anticoagulation in, 69
- Cervical lymphadenopathy  
postpartum presentation of kikuchi syndrome coincident with the onset of systemic lupus erythematosus (SLE), in a woman with rash, fever, and, 57
- Chemotherapy, treatment/prevention options for hair loss during, 328
- Chlamydia psittaci, analysis of virulence factors in, 455
- Chlamydia trachomatis* infections, analysis of incident rates among high school children, 456
- Chlorhexidine (CHG) bath protocol, as preventive tool for nosocomial (healthcare-associated) methicillin-resistant Staphylococcal aureus (MRSA) infections, 417
- Cholecystitis, case report of, 35
- Chronic kidney disease (CKD), management of patients in primary care, 516
- Chronic lymphocytic leukemia (CLL), study of occurrence of leukemic infiltration of the kidneys in, 572
- Chronic neutrophilic leukemia, case report of, 148
- Chronic urticaria (CU), case of, associated with eosinophilia, 58
- Chylothorax, neonatal, diagnosis and management of, 213
- Cigarette smoking, role in inducing hematopoietic stem cells disfunctions, 482
- Cinobufatalin, effect on rat pregnancy, 384
- Clinical vignette scoring tool, effect on modifications, 522
- Clopidogrel, safe and successful rapid oral desensitization procedures to treat hypersensitivity of, 63
- Clostridium difficile colitis, case report of difficulty in diagnosing and treating ulcerative colitis (UC) in the presence of severe, 127
- CNS Rhabdoid tumors (CNS RT), clinical presentation and therapy for, 144
- Cocaine abusers, physiological effect of beta-blocker therapy on, 1
- Coccidiomycosis (Valley Fever), case review of cavitary lesions in, 181
- Colitis, comparative study of clostridium difficile (CDC) with community acquired (CA) CDC, 337
- Colitis-associated carcinoma (CAC), role of tumor necrosis factor receptor 1 (TNFR1) in experimental colitis and the progression to, 335
- Colonoscopy, evaluation of efficacy of opportunistic screening for diabetes mellitus, 426
- Community acquired methicillin-resistant Staphylococcus aureus (CA-MRSA) case report of spinal epidural abscess (SEA), complicating, 210  
with necrotizing pneumonia and systemic thrombosis, case report, 232
- Complete atrioventricular block (CAVB), effective reversing of, 28
- Computerized Physician Order Entry (CPOE), 2006 estimate and investigate hospital characteristics associated with adoption using, 138
- Congenital ovarian cyst, diagnosis in neonates, 192
- Congenital portal vein thrombosis (PVT), in a term newborn, case report, 212
- Congenital uric acid nephrolithiasis, case report, 391
- Constipation, chronic, study of neuronal morphology related to, 427
- Coronary artery atresia, in asymptomatic adult, case report of, 32
- Coronary artery disease  
effect of stenosis length and diameter on fractional flow reserve in, 2  
iodine induced thyrotoxicosis in a patient with, 120
- Coronary vascular reactivity (CVR), impaired, study of significance in cardiac syndrome X (CSX), 402
- C-reactive protein  
mediated vascular injury, criteria for, 287  
relationship between socioeconomic variables and depression with, 87

role in inflammatory mediator expression by macrophages in vitro via the Fc $\gamma$ R1 receptor, 318

Crescentic glomerulonephritis, in Crohn's disease, case report, 254

Cricoid lamina, vertical ossification of, misdiagnosed as a foreign body in the airway, 208

Critical limb ischemia (CLI), long-term patency of, 96

Crohn's disease (CD)  
with crescentic glomerulonephritis, case report, 254  
study of vulvovaginal involvement in, 545

Cryoglobulinemia, diffuse alveolar hemorrhage in patients with, case report, 245

C-spine fracture, unstable, case of, 45

Cuff leak test, evaluation of utility for the diagnosis of upper airway edema, 242

CXCR5<sup>+</sup> follicular T helper (T<sub>fh</sub>) cells, pathogenic GC response of, in autoimmune BXD2 mice, 304

Cyclic thrombocytopenia (CTP), progesterone therapy for, 168

Cyclic vomiting syndrome (CVS), evaluation of autonomic and vagal nerve function in adult patients with, 430

Cyp11a1-Ren2 transgenic rats, with angiotensin (ANG) II-dependent hypertension, effects of acute direct renin inhibition with aliskiren in, 261

Cytomegalovirus (CMV) disease, literature review of, 182

---

## D

Delirium, deceptive clinical picture of, case report, 8

Depression screening, in mobile pediatric clinic, effectiveness of, 301

Dextrocardia, with AV and VA discordance and right anterior aorta, case report of, 553

DH usage, study of developmental restrictions in the pattern of, in human fetus, 406

Diabetes  
examination of the urine for non-oxidative metabolites of ethanol, 218  
relationships of lipoprotein subclasses by nuclear magnetic resonance (NMR) and apolipoprotein-based classifications in, 109  
web-based physician intervention on glycemic, blood pressure (BP), and lipid control in, 512

Diabetes, type 1  
benefits of continuous glucose monitoring in, 111  
levels of plasma cytokines and adipokines in, 325  
vitamin D deficiency and preeclampsia in pregnant women with, 103

Diabetes, type 2  
effects of anti-TNF- $\alpha$  treatment, 321  
levels of plasma cytokines and adipokines in, 325  
proxies for health literacy in predicting self-care behaviors in patients of, 105  
role of stromal cell with EGF in enhancing ischemia-induced vasculogenesis in, 319

study of association between anti-diabetic medication adherence scale scores and glycemic control in, 420

Diabetes education program, effectiveness in improving patient behaviors, 106

Diabetes gastroparesis, study of changes in interstitial cells of Cajal (ICC) and nerve fibers in gastric muscle, 422

Diabetes insipidus, manifestations in bacillus cereus meningo-encephalitis in a preterm infant, case report, 221

Diabetes mellitus  
evaluation of efficacy of opportunistic screening for at the time of colonoscopy, 426  
type 1, role of circulating cytokines in predicting, 126  
type 2, efficacy study of U-500 insulin therapy, 554

Diabetic cardiomyopathy, abnormal activation of FoxO transcription factors in, 315

Diabetic ketoacidosis, recurrent, clinical, economic and social factors in patients with, 107

Diabetic myonecrosis, case report of, 526

Diabetic nephropathy  
role of environmental tobacco smoke (ETS) in, 490  
strategies for reducing BP and albuminuria in, 272

Diabetic rats, role of nitric oxide in the urine concentration mechanism in, 255

Diffuse large B-cell lymphoma (DLBCL)  
case report and literature review of, 163  
management of early stage, 350

DiGeorge anomaly (DGA), case report of, 203

Dilated cardiomyopathy (DCM), due to acute hepatitis, in AIDS patient, case report, 194

Douglas and Residents Together (DART) Program, evaluation of impact on residents' knowledge of breastfeeding and cultural competency, 371

Drug abuse  
longitudinal trajectory of nonmarijuana drug use among adults followed for 18 years, 507  
physiological effect of beta-blocker therapy on, 1

Dysphagia, clinical presentation and mechanism of, 341

---

## E

EBV infection, splenic rupture in, case review, 199

Ectopic kidney mimicking, on GSPECT Tc-99m Myoview images, 6

EF estimation, effect of a atrial fibrillation (AF) in, 92

Electrocardiogram (ECG)  
demographic and clinical characteristics of, 95  
repolarization patterns, observations, 531

Electronic health record (EHR), as a tool for assessing allergic rhinitis, 66

Emergency department crowding (EDC), analysis of blood culture contamination, 439

Emergency Departments (ED), evaluation of trends among nursing home (NH) residents presenting to, 434

Emphysematous gastritis, conservative management of, literature review, 134

Endocarditis, complete spectrum of, 76

Endocrine pancreas, ontogenesis in a premature baboon model, 467

End-stage renal disease (ESRD)  
case report of an African American man with, and uncontrolled hypertension, 46  
correlations between ambulatory blood pressure monitoring (ABPM) and routine blood pressure (BP) measurements, 256  
left ventricular (LV) dyssynchrony as a predictor of mortality in patients with, 394

Environmental tobacco smoke (ETS), role in progression of diabetic nephropathy, 490

Eosinophilia, clinical presentation of, 563

Eosinophilic esophagitis (EoE), gene expression profile of inflammatory mediators and extracellular matrix and adhesion molecules in, 332

Esophageal carcinoma, study of brain and spinal cord metastatic lesions from, 537

Estrogens, role in oncogenesis, 353

Etanercept therapy, for sarcoidosis, 59

Extra-articular rheumatoid arthritis (ExRA), study of relationship between lung disease (LD) and, 303

Extramedullary hematopoiesis, case report, 541

Extrapulmonary tuberculosis (EPTB), retrospective review of cases, 459

---

## F

Familial interstitial nephritis, study of genetic linkage of, 385

Fetal growth, effect of revised IOM weight gain guidelines on, 282

Fever  
in pediatric traveler, case report, 189  
postpartum presentation of kikuchi syndrome coincident with the onset of systemic lupus erythematosus (SLE), in a woman with rash, fever, and cervical lymphadenopathy, 57

Fish poisoning, case report of, 205

Forced expiratory volume in 1 second/forced vital capacity ratio, determination of impairment in the elderly using, 230

Fornix rupture, case report, 550

Fractional flow reserve (FFR) measurement, coronary interventions based on, 93

FRAX tool, compliance and impacts on prescribing behavior in an outpatient setting, study, 329

Fructose feeding, high, impact on rat arterial system, 320

Fulminant hepatic failure, from accidental acetaminophen overdose complicated with chronic alcohol consumption, study, 567

---

## G

Gabapentin, behavioral side effects of, 13

Gastric electrical stimulation (GES)  
electrophysiologic effects on the gastric mucosa after, 130  
study of efficacy for gastroparesis, 428  
study of the effect of changing energy levels, 423

- temporary, impact in patients with gastroparesis, 425
- Gastric residual volumes (GRV), evaluation of nursing practice of checking, 339
- Gastrointestinal bleeding  
lower, due to pancreatic necrosis, 532  
upper, case report, 560
- Gastrointestinal stromal tumors (GIST), clinical presentation of, 133
- Gastroparesis (GP)  
neuro-muscular evaluation of patients with, 431  
quantitative analysis of length of hospital stay related to, 424  
relationships between psychological stress, gastrointestinal symptoms and physiology, immune function and coagulation in patients with, 425, 429  
study of efficacy of gastric electrical stimulation (GES) for, 428
- Gastroschisis, review of treatment outcome at Kosair Children's Hospital (KCH), 223
- Gemcitabine associated platelet toxicity, study of potential risk factors of, 347
- Genomic quadruplex-forming sequences, growth inhibitory effects of, 344
- Gerbode defect, associated with Pneumococcal endocarditis, case report of, 27
- Gerbode ventricular septal defect, due to complication of septal myomectomy and mitral valve replacement, case report, 74
- Geriatrics, analysis of health service accessibility and adherence to antihypertensive medications among older adults, 440
- Germ-free (GF), role of non-pathogenic bacteria in correcting the morphological abnormalities of, 374
- GI disorders, cost-effective and symptom-specific assessments in the clinical evaluation of, 131
- Gitelman syndrome  
case report of chronic atrial fibrillation and prolonged  $Q_t_c$  interval in a patient with, 393  
case report on a woman with, 30
- Glaucoma, analysis of epidemiological data, 299
- Gliomatosis cerebri (GC), case report of, 146
- Glomerular filtration rates (GFR), in chronic spinal cord injury patients, estimation equations for, 274
- Glucose homeostasis, examination of childhood variables in, 202
- Grisel's syndrome, clinical feature of subluxation of C1 on C2 associated with an infectious condition in the head or neck, 201
- Growth hormone (GH), treatment outcome of, 110
- Guanylyl cyclase-A/natriuretic peptide receptor-A (GC-A/NPRA)  
consequences of disruption of, 257
- Guanylyl cyclase-A/natriuretic peptide receptor-A (GC-A/NPRA)  
role of transforming growth factor- $\beta$ 1 (TGF- $\beta$ 1) in transcriptional regulation and expression of, 396
- Gut mucosal mast cells (MMC), role in mucosal inflammatory responses, 334
- 
- ## H
- 
- Haemophilus influenzae (HI) disease, changes in the epidemiology post vaccination, study, 356
- Health care providers (HCP), analysis of stress, fatigue and burnout in, 513
- Health literacy  
evaluation of NICU parents with regard to their infant's disease processes and health status, 468  
strategies, effects of a pilot program on providers' knowledge and use of, 187
- Hematemesis, case report of, 172
- Hematophagocytic lymphohistiocytosis syndrome (HLH), case report of, 142
- Heme oxygenase-1 (HO-1), study of immunoregulatory role of, 389
- Hemodialysis catheters, impact of malpositioning in atrial septum, 530
- Hemoglobin A1c (HbA1c), as a marker for measuring insulin resistance in obese children, 121
- Hemolytic uremic syndrome (HUS), atypical, case report, 390
- Hepatic sarcoidosis, in psoriatic arthritis (PsA), study, 552
- Hepatitis C  
diffuse alveolar hemorrhage in patients with, case report, 245  
evaluation of noninvasive markers of fibrosis in, 457  
primary care-based treatment for urban, underserved patients with, 503
- Hepatocellular carcinoma (HCC), incidence, etiological factors, diagnostic and management strategies for, 534
- Herpes simplex type 2 meningitis, case of, 49
- Heterotaxy syndrome, neonatal, case report, 220
- Hibiclen<sup>®</sup>, study of efficacy of, 447
- High protein (HP) diet, effects on oxidative stress and lipid metabolism, 322
- High salt diet  
effects on hypertension, renin gene expression, and urinary excretion in chronic AngII-infused rats, 486  
study of sexual dimorphism of renal injury during, 269
- Hirschsprung's disease, in an extremely preterm infant, case report of, 26
- HIV  
multiple sclerosis (MS) manifestations in, 170  
screening, quality improvement intervention for, 511  
seronegative neurosyphilis in patients with, 173
- H1N1 influenza  
analysis of outbreak pattern in a summer camp for children with hematologic and oncologic conditions, 412  
clinical characteristics of, 479
- A infections, in a renal transplant patient presenting with abdominal pain and septic shock, case report, 236
- A virus, novel, pandemic experience and identification of patterns for improving clinical care of patients, 357
- H1N1 pneumonitis, in a transplant recipient, case report, 178
- Hodgkin lymphoma, clinical presentations, differential diagnosis and challenges in diagnosing, 154
- Holt-Oram syndrome (HOS), novel mutation in the TBX5 gene with multiple ventricular septal defects (VSDs) in, 209
- Hospital acquired infections (HAIs), study of trends in, 421
- House calls, analysis of attitudes of residents, patients and caregivers to, 499
- HPV vaccine, evaluation of acceptance and compliance among indigent preadolescent and adolescent females, 291
- HSV-1 croup associated with meningitis, case report of, 193
- Human milk fortifier, powdered versus liquid, study of short-term weight gain and feeding tolerance of, 283
- Hydrogen sulfide (H<sub>2</sub>S), impact on systemic blood pressure (SBP) in rats, 487
- Hyperbilirubinemia, complications in sickle cell disease, 129
- Hyperglycemia, elevation of pro-inflammatory cytokines in, 323
- Hyper IgG 4 lung disease, case of, 10
- Hyperkalemia, as side effect of trimethoprim sulfamethoxazole (TMP-SMX) therapy, study, 544
- Hyperparathyroidism, secondary, in African Americans, with decompensated biventricular failure, 89
- Hypertension, uncontrolled, case report of an African American man with, and end stage renal disease, 46
- Hyperthyroidism  
associated with the onset of congestive heart failure (CHF), 72  
association with pulmonary hypertension, 248
- Hyperuricemia (HU), mechanisms in spondyloarthropathies (SpA) patients, 551
- Hypoglycemia, elevation of pro-inflammatory cytokines in, 323
- Hypokalemia  
as a contributing factor to the appearance of atrial fibrillation (AF), 80, 314  
use of  $Q_t_c$  prolongation interval monitoring in addressing the appearance or correction of, 401
- Hypomagnesemia, as a contributing factor to the appearance of atrial fibrillation (AF), 80, 314
- Hypoparathyroidism  
case of dilated cardiomyopathy as an initial manifestation of, in an infant, 24  
treatment with parathyroid hormone (rhPTH), 117
- Hypopituitarism, due to pituitary abscess with lymphocytic hypophysitis, case report, 116
- Hypotonia, as a sign of transient neonatal myasthenia gravis, case report, 217
- Hypoxic-ischemic (HI) brain injury, in newborn rats, evaluation of CS changes following hypoxic preconditioning (PC) stress in, 380
- 
- Idiopathic juvenile osteoporosis, study of genes and cytokine expression profile in, 404
- IgE, binding to Ara h 2, study of epitopes for, 409

IGF-1-induced atheroprotection, role of SMC vs. MΦ LOX in, 313

IL-1 $\alpha$  and  $\beta$ , effects on regulation of ENaC subunit expression in a mouse lung epithelial (MLE-12) cell line, 466

IL-10 signaling, role in regulating inflammation during intestinal colonization, 286

Immunomodulatory high-dose subcutaneous immunoglobulin therapy, for opsoclonus Myoclonus Syndrome (OMS), 53

Increlex, treatment outcome of, 110

Infant CPR, fatigue during, study, 244

Infantile hypertrophic pyloric stenosis, relationship with oral erythromycin therapy, 211

Inflammatory myofibroblastic tumor, of the lung in a child, case report, 207

Influenza, detection tools of, 136

Information-Motivation-Behavioral Skills (IMB) model, assessment of diabetes self-care and glycemic control using, 443

Insulin-like growth factor-1 (IGF-1), role in preventing endothelial dysfunction and atherosclerosis progression, 82

Insulin resistance (IR), use of hemoglobin A1c (HbA1c) as marker for measuring, in obese children, 121

Interferon (IFN)- $\alpha$ , role in dendritic cells (DC) functions and activation of anti-tumor T cells, 449

International medical graduates (IMGs) barriers to acculturation in medical education, 365

nurse attitudes towards, 366

Intrathoracic malignant peripheral nerve sheath tumor, case report of, 167

Intravenous immunoglobulin (IVIG) therapy, for acute disseminated encephalomyelitis (ADEM), 18

Intussusception, diagnosing difficulties with, 22

IOM weight gain guidelines, effect on fetal growth, 282
