### Southern Regional Meeting Abstracts Subject Index

#### A

| AB | Abdominal wall hematoma, low molecular weight heparin injections associated with causes of, 202
| --- | --- |
| AL | AB1 amplification and T-cell acute lymphoblastic leukemia, dasatinib for, in pediatric patient, 528
| AV | Absent pulmonary valve syndrome (APVS), tetralogy of Fallot with, 248
| AC | Academic medical center, insurance and utilization characteristics of vulnerable users at, 608
| AH | Accountable care organizations (ACOs), insurance and utilization characteristics of vulnerable users at, 608
| AM | Acquired hemophilia, combination immunomodulatory treatment with rituximab for, 525
| AW | Acquired Von Willebrand disease (AvWD), pulmonary leukostasis associated with, healthy adult, case report, 309
| AP | Papillary muscle rupture, case report, 33

#### Acute respiratory distress syndrome, Acute posterior myocardial infarction with Acute pancreatitis

| AM | Acute myeloid leukemia (AML), reversible renal myocardial infarction due to, case report, 116
| AQ | Acute coronary vasospasm, acute inferior myocardial infarction due to, case report, 116
| AR | Acute disseminated encephalomyelitis (ADEM), associated with a falsely positive HIV ELISA, case report, 51
| AS | Acute flaccid paralysis, WNV infection in

#### Acute coronary vasospasm, Acute inferior myocardial infarction due

| AM | Acute myeloid leukemia (AML), case report, 57
| AQ | Acute coronary vasospasm, acute inferior myocardial infarction due to, case report, 116
| AR | Acute disseminated encephalomyelitis (ADEM), associated with a falsely positive HIV ELISA, case report, 51
| AS | Acute flaccid paralysis, WNV infection in

| AM | Acute myeloid leukemia (AML), reversible renal myocardial infarction due to, case report, 116
| AQ | Acute coronary vasospasm, acute inferior myocardial infarction due to, case report, 116
| AR | Acute disseminated encephalomyelitis (ADEM), associated with a falsely positive HIV ELISA, case report, 51
| AS | Acute flaccid paralysis, WNV infection in

#### Asbestos

| AN | Anti-TNF-alpha therapy for Kawasaki disease, use of, 583
| AT | Antibiotic associated colitis with candida, 503
| AU | Antibiotics in primary care, development and implementation of CDSS for use of, 583
| AV | Anti-neutrophil cytoplasmatic antibody (ANCA) associated vasculitis in teenager, case report, 267

#### Atlantoaxial subluxation

| AT | Atlantoaxial subluxation, epidemiologic features of, 326
| AU | Anterior/Posterolateral Column Fracture, case report, 118

#### Ascites

| AS | Ascites, found in an elderly woman with atrial fibrillation, 176

#### Asthma exacerbations

| AT | Asthma exacerbations, 559

#### Asthma exacerbations, home albuterol for

| AT | Asthma exacerbations, home albuterol for, 559

#### Ascites

| AT | Ascites, 326

#### Asymptomatic adults

| AT | Asymptomatic adults, 382

#### Asthma exacerbations

| AT | Asthma exacerbations, home albuterol for, 559
Caffeine treatment, effects of, on the outcomes of bronchopulmonary dysplasia and patent ductus arteriosus, in extremely preterm infants, 436
Calcium dyshomoeostasis during isotroperesin-induced acute stressor state, 345
Calcium mobilization, evaluation of, in T cells responding to a collagen analog peptide, 380
Cancer clinical trial, trials and tribulations in recruitment to, 409
Cancer screening in rural area, colorectal, opportunities and barriers of, 513
Candida, antibiotic associated colitis with, 503
Candida endocarditis, case report, 227
Candidemia, epidemiologic characteristics and selected outcomes of, in Metropolitan Atlanta, Georgia, 2008-09, 416
Capsule endoscopy, small bowel obstruction following, case report, 49 in elderly patients, 502
Car booster seat study, restraint rate determination by, in Gulf Coast Area children, 364
Cardiac and cerebral hemodynamics in term neonates immediately after birth, changes in, 295
Cardiac arrhythmias and necrosis, cation dyshomoeostasis, prolonged myocardial repolarization with, 104
Cardiac mitochondria, isoprotein-induced calcium overloading and oxidative stress in, 96, 97
Carotid and femoral atherosclerotic plaques with serum phosphorus in adults, relationship between, 119
Carotid artery intima-media thickness, progression of, in young adults, 478
Carotid intima-media thickness (CIMT) in blacks, childhood adiposity is more important than adulthood adiposity for predicting, 121
in young adults, progression of segment-specific, 347
Catastrophic antiphospholipid syndrome (CAPS) in children, case report, 84 (+)-Catechin, effects of, on proteinuria, in streptozotocin-induced diabetic rats, 456
Cat scratch disease (CSD), case report, 23
CBPR, translating opportunistic self-interest into partnership commitment, 594
C-DR3, developing B cells expressing antibodies enriched for disfavored amino acids in, to test cell survival or proliferation, 372
Celiac artery compression syndrome (CACS), case report on, 508
Celiac disease (CD) case report, 5
diagnosis of adult-onset, after pancreticoduodenectomy for duodenal adenocarcinoma, case report, 396
Cell generating peptides, inhibitory effects of, on AT, receptor carboxy-terminus reduce receptor accumulation and cell surface expression, 452
Central diabetes insipidus in a patient with rubies encephalitis, case report, 325
Cephalgia, case report, 68

B

B cell subsets in spleen, BCR repertoire matures prior to the establishment of adult, 91
B12 deficiency case report, 197
chart review for proper work up of, 598
Bed sharing practice, prevalence of, during the first year of life, in Memphis, 370
Behcet’s disease (BD), case report, 53
Beta globin chain on codon 121, heterozygous frameshift mutation of hemoglobin variant, case report, 185
Bevacizumab, thrombotic microangiopathy by, for metastatic renal cell carcinoma, 529
Biliary disruption and portal hypertension caused by hepatic sarcoidosis, 506
Biventricular failure, hypoalbuminemia and lymphocytopenia in African-Americans hospitalized with decompensated, 103
Black men, fatherlessness and HIV risk-related behavior among, 539
Blood pressure and lipid control among patients with diabetes mellitus, relationship between, 60
variability, effect of fluctuations in adiposity on, from childhood to adulthood, in a biracial (black-white) cohort, 390
Blurred vision as symptom of giant cell arteritis (GCA), case report, 87
Body mass index, longitudinal study of, in Head Start children over ten year period, 368
Body volume indices and metabolic parameters in non-obese individuals, association between, 122
Body weight with resistant hypertension, and aldosterone release, correlation between, 387
Bogalusa Heart Study in biracial population of asymptomatic young adults, to correlate arterial compliance and C-reactive protein variables, 382
cardiotartery intima-media thickness progression in young adults, 478
effect of fluctuations in adiposity on blood pressure variability, 390
Brain apoptotic neurodegenerative effects of glucocorticoids on developing rat, 545
speech perception in late preterm infants, 436
Brain natriuretic peptide, utility test of, for predicting, 121
in young adults, progression of segment-specific, 347
Brain natriuretic peptide, utility test of, for predicting, 121
in young adults, progression of segment-specific, 347
Brain tumor, intervention and diagnosis, case report, 29
Breastfeeding health literacy in, 420
negative association between cesarean delivery and, in U.S., 434
Bronchialairway stem cells (BASCs), proliferation of, during lung epithelium repair after injury by inhaled asbestos, 556
Bronchopulmonary dysplasia, effect of nutritional support strategies on growth outcomes, in extremely low birthweight infants with, 170
Budd Chiari syndrome (BCS) janus kinase 2 mutation myeloproliferative disorder presenting as, case report, 167
signs and symptoms, case report, 169

B

B cell subsets in spleen, BCR repertoire matures prior to the establishment of adult, 91
B12 deficiency case report, 197
chart review for proper work up of, 598
Bed sharing practice, prevalence of, during the first year of life, in Memphis, 370

Blood pressure and lipid control among patients with diabetes mellitus, relationship between, 60
variability, effect of fluctuations in adiposity on, from childhood to adulthood, in a biracial (black-white) cohort, 390
Blurred vision as symptom of giant cell arteritis (GCA), case report, 87
Body mass index, longitudinal study of, in Head Start children over ten year period, 368
Body volume indices and metabolic parameters in non-obese individuals, association between, 122
Body weight with resistant hypertension, and aldosterone release, correlation between, 387
Bogalusa Heart Study in biracial population of asymptomatic young adults, to correlate arterial compliance and C-reactive protein variables, 382
cardiotartery intima-media thickness progression in young adults, 478
effect of fluctuations in adiposity on blood pressure variability, 390
Brain apoptotic neurodegenerative effects of glucocorticoids on developing rat, 545
speech perception in late preterm infants, 436
Brain natriuretic peptide, utility test of, for predicting, 121
in young adults, progression of segment-specific, 347
Brain tumor, intervention and diagnosis, case report, 29
Breastfeeding health literacy in, 420
negative association between cesarean delivery and, in U.S., 434
Bronchialairway stem cells (BASCs), proliferation of, during lung epithelium repair after injury by inhaled asbestos, 556
Bronchopulmonary dysplasia, effect of nutritional support strategies on growth outcomes, in extremely low birthweight infants with, 170
Budd Chiari syndrome (BCS) janus kinase 2 mutation myeloproliferative disorder presenting as, case report, 167
signs and symptoms, case report, 169

B

Back pain, decreased duplicate diagnostic imaging for, health information exchange in emergency evaluation of, 577
Bartonella henselae cat scratch disease (CSD), case report, 23
endocarditis in pediatrics, 224
B-cell acute lymphoblastic leukemia (B-ALL), PKCB inhibition on, 523
B cells expressing antibodies, development of, for hydrophobic amino acids in CDR-H3, to test apoptosis and cell cycle proliferation, 372

© 2011 The American Federation for Medical Research
Cerebellar hemorrhage in the extremely premature infant, balanced use of vasopressors for increased risk of, 293
Cerebral oximetry, initial description of, in heart failure patients, 460
Cerebral venous sinus thrombosis, with previously undiagnosed primary hyperthyroidism, case report, 61
Certified athletic trainers (ATCs) in Alabama, knowledge and management of concussions among, 125
Cervical cancer screening and HPV vaccination in women, 595
Cervical disc calcification, case report, 252
CHARGE syndrome, CHD7 mutation associated with, case report, 83
Chiari type 1 malformation, case report, 80
Cervical disc calcification, case report, 252
Certified athletic trainers (ATCs) in Alabama,
Cerebral venous sinus thrombosis, with previously undiagnosed primary hyperthyroidism, case report, 61
Certified athletic trainers (ATCs) in Alabama, knowledge and management of concussions among, 125
Cervical cancer screening and HPV vaccination in women, 595
Cervical disc calcification, case report, 252
Certified athletic trainers (ATCs) in Alabama,
Cerebral venous sinus thrombosis, with previously undiagnosed primary hyperthyroidism, case report, 61
Certified athletic trainers (ATCs) in Alabama, knowledge and management of concussions among, 125
Cervical cancer screening and HPV vaccination in women, 595
Cervical disc calcification, case report, 252
Certified athletic trainers (ATCs) in Alabama,
Cerebral venous sinus thrombosis, with previously undiagnosed primary hyperthyroidism, case report, 61
Certified athletic trainers (ATCs) in Alabama, knowledge and management of concussions among, 125
Cervical cancer screening and HPV vaccination in women, 595
Cervical disc calcification, case report, 252
Certified athletic trainers (ATCs) in Alabama,
Cerebral venous sinus thrombosis, with previously undiagnosed primary hyperthyroidism, case report, 61
Certified athletic trainers (ATCs) in Alabama, knowledge and management of concussions among, 125
Cervical cancer screening and HPV vaccination in women, 595
Cervical disc calcification, case report, 252
Certified athletic trainers (ATCs) in Alabama,
Cerebral venous sinus thrombosis, with previously undiagnosed primary hyperthyroidism, case report, 61
Certified athletic trainers (ATCs) in Alabama, knowledge and management of concussions among, 125
Cervical cancer screening and HPV vaccination in women, 595
Cervical disc calcification, case report, 252

Cervical disc calcification, case report, 252
Certified athletic trainers (ATCs) in Alabama,
Cerebral venous sinus thrombosis, with previously undiagnosed primary hyperthyroidism, case report, 61
Certified athletic trainers (ATCs) in Alabama, knowledge and management of concussions among, 125
Cervical cancer screening and HPV vaccination in women, 595
Cervical disc calcification, case report, 252
Certified athletic trainers (ATCs) in Alabama,
Cerebral venous sinus thrombosis, with previously undiagnosed primary hyperthyroidism, case report, 61
Certified athletic trainers (ATCs) in Alabama, knowledge and management of concussions among, 125
Cervical cancer screening and HPV vaccination in women, 595
Cervical disc calcification, case report, 252
Certified athletic trainers (ATCs) in Alabama,
Daily controller medications (DCMs), follow-up appointments after an ED visit for asthma in pediatric patients, 516
Darbepoetin to erythropoetin goal hematocrit level in a hemodialysis, comparative analysis of the effect of, 329
Dasatinib, complete cytogenetic remission by, treatment in pediatric patient with T-cell ALL and ABL1 amplification by, 528
Daughters of mothers with breast cancer and women participating in the Behavioral Risk Factor Surveillance Survey, comparison between, 485
Deceased donor kidneys, long-term outcome of highly sensitized African American patients transplanted with, 320
Decreased duplicate imaging, in emergency evaluation of back pain, health information exchange use, 577
Deficiency of the interleukin-1 receptor antagonist (DIRA), case report, 297
Delusions of parasitosis (DP), case report, 6
De nova Crohn disease, renal transplant therapy for, case report, 257
Dental erosions, and gastroesophageal reflux disease, correlations between, in children, 402
Diabetes education for Vietnamese Americans (DEVA), 512
Diabetes insipidus, case report, 269
Diabetes mellitus
theart rate response to adenosine for significant prognostic data to MPI variables in patients with, case report, 117
relationship between rurality and glucose, BP and lipid control among patients with, 604
Diabetic ketoacidosis among children with newly diagnosed Type 1 diabetes mellitus, increased incidence and severity of, 133
behavioral, socioeconomic and psychosocial factors, 148
troponin elevation in, case report, 32
unusual presentation of, case report, 262
Diabetic/non-diabetic parents cardiometabolic risk factors in normoglycemic offspring of, 144
glucose regulation in normoglycemic offspring of, 145
Diabetic rat kidney, membrane accumulation of the urea transporter in, 318
Dialysis unit, information visualization in, 315
Diazoxide for treatment of recurrent insulinoma, case report, 142
Difluoromethane, preservation of renal function by, vascular endothelial growth factor inhibition in diabetic kidney by, 563
DiGeorge syndrome (DGS), CHD7 mutation associated with, case report, 83
Discharge against medical advice (DAMA), to identify factors associated with, 181
Discitis, case report, 65
Disseminated histoplasmosis in an immunocompetent patient, case report, 229
Dominant-negative Sre mutant, miRNA expression modulated by, 524
Doxorubicin-induced cardiotoxicity, role of autophagy in, 383
Driving safety and awareness, graduated driver's license program for, among teenagers, 369
Drug choices in pregnant women living in urban and rural areas, comparison of, 296
Drug induced thrombocytopenia, case report, 228
Dropping syndrome, post-gastroenteritis, as a new clinical entity, case report, 401
Dysmowestasis, calcium and zinc, during isoproterenol-induced acute stressor state, 359
Dyspnea due to intraabdominal fat accumulation, case report, 305
ECG interpretation, diagnostic accuracy for, in patients with ST elevation myocardial infarction, 391
Ectopic clival pituitary adenoma due to anushing syndrome, case report, 152
Eculizumab for pregnant patient with paroxysmal nocturnal hemoglobinuria, 530
Egg allergic children, influenza vaccine testing with, 530
Endothelial nitric oxide synthase activity, effect of growth factor inhibition in diabetic kidney, 318
Endothelial progenitor cells in end stage renal disease, association between, 485
Endoplasmic reticulum stress, in diabetic retinopathy and human disease, associated with, 604
Emphysematous gastritis and concomitant portal venous air, case report, 223
diagnosis of, 504
Emphysematous gastritis, case report, 161
ENaC blockade, effects of, on CD renin expression and urinary renin content, in angiotensin II-infused rats, 451
Endocannabinoid system, polymorphisms of, in obese African American women, 492
Endometrial cancer, subcutaneous metastasis of, case report, 52
Endoplasmic reticulum stress, in diabetic retinopathy and human disease, associated with retinal injury, 490
Endoscopy, capsule, in elderly patients, 502
Endothelial nitric oxide synthase activity, effect of lupus plasma on, in HAECS, 469
Endothelial progenitor cells in end stage renal disease, association of higher systolic blood pressure (SBP) with, 321
Endothelin excretion associated with reduced GFR, dietary fruits and vegetables reduce augmented urine, 314
Enteroctocutaneous fistula, Crohn's disease, 281
Enterra therapy clinical outcome of, with regard to supplemental nutritional support and maintaining weight in gastroparesis patients, 392
Eosinophilic esophagitis, pediatric patients with, 501
Epidural abscess mimicking lymphoma recurrence in a patient with HIV, case report, 188
Epigenetic re-programming of human endothelial cells, by oxidized LDL, towards resistance to apoptosis, 386
Epigenomic landscapes, of renal developmental regulator, 567
Epithelial barrier dysfunction, alcohol-induced oxidative stress and, Nrf2 inhibiting expression mediated, 560
Epithelial-macrophage cellular interaction, for activation of TGFβ1 in alcoholic lung, 552
Epstein-Barr virus (EBV) infection, periorbital edema as the initial manifestation of, 70
reactivation and induced ganciclovir susceptibility by arsenic mediated disruption of PML NB, 521
Equine ATG in patient with serum sickness (SS), rabbit ATG administration to, 71
Erythema multiforme (EM), case report, 58
Esophageal dysmotility and statins, possible association between, 601
Estimated glomerular filtration rate reporting (eGFR), adoption of, among VAMCs, 593
Estrogen deficiency, bone loss and thymic hypertrophy associated with, 497
Estrogen receptor alpha, in systemic lupus erythematosus, by regulating the inflammatory response via toll-like receptor signaling, 473
Ewing's sarcoma in the cervical spine, case report, 301
Exercise echocardiography, detection of prosthetic mitral valve dysfunction using, 245
Extremely low birthweight (ELBW) infants with bronchopulmonary dysplasia, effect of nutritional support strategies on growth outcomes in, 170
Failure to thrive, renal tubular acidosis (RTA) as cause of, case report, 242
Familial adenomatous polyposis (FAP), case report, 55
Familial Mediterranean fever (FMF), patients who underwent laparotomy prior to the diagnosis of, case report, 263
Family-centered rounds implementation of, related to patient and nurse satisfaction, 367
to improve parent satisfaction, communication, patient safety, outcomes, and trainee education, 422
Family centered rounds (FCR), to enhance student and resident knowledge about, 174
Febrile neutropenic patients, standardized ED order set to reduce time to first dose of antibiotics in pediatric, 518
Fecal microbiota, analysis of, in infants with and without necrotizing enterocolitis, 433
Feeding guidelines, incidence of necrotizing enterocolitis (NEC) before and after implementation standardized, 282
Feeding intolerance, congenital hiatus hernia in causing, case report, 249
Femoral and carotid atherosclerotic plaques with serum phosphorus in adults, relationship between, 119
FibroQ vs. noninnvasivemarkers, in veterans with chronic hepatitis C, of liver fibrosis, 537
Flecainide toxicity, pacemaker malfunction due to, 109
Floppy infant, case report, 264
Fluconazole impacted fungal infections, in VLBW infants, prophylactic therapy with systemic, 538
Focal segmental glomerulosclerosis (FSGS), HBV infection, 337
Fourth year medical students, role of, as small group facilitators, 430
FoxD1, role of, and renin-angiotensin system, in metanephric kidney development, 450
Free light chains, urinary excretion of, as biomarker of acute rejection, in kidney transplant, 458
Frontal sinusitis, CN V1 palsy, case report, 27
Fruits and vegetables, hypertensives with, CKD have higher dietary acid due to lower intake of, 566
Fulminant herpes encephalitis with thalamic involvement, case report, 233
Fungal endocarditis, case report, 227
Fungal immunotherapy, safety of high dose, in patients with allergic fungal sinusitis, 474
Fungal infections, in VLBW infants, prophylactic therapy with systemic fluconazole impacted, 538

Germline immunoglobulin DH amino acid sequence, defects against Streptococcus pneumoniae by, 476
Gestation age at birth for very low birth weight preterm infants, length of hospital stay in relation to, 284
Giant cell arteritis (GCA), new onset headache and blurred vision as symptoms of, case report, 87
Gitelman syndrome, 3
Glomerular filtration rate, dietary fruits and vegetables reduce augmented urine endothelin and aldosterone excretion associated with, reduced, 314
Glomerulonephritis in pediatrics, 224
Glucocorticoid-induced osteoporosis, prevention of, 471
Glucocorticoid receptor SNPs, characteristics of, in diabetic, obese, and healthy black women, 491
Glucocorticoids, apoptotic neurodegenerative effects of, on developing rat brain, 545
Glucoregulation in normoglycemic offspring of diabetic/non-diabetic parents, 145
Glycemic variability, impact of, on inpatient mortality receiving total parenteral nutrition, 494
Gonococcal infection, case report, 234
Graft survival, risk factors and effects of, in metanephric development, 355
Greater New Orleans (GNO) area, prevalence of childhood obesity in, 44
Heart rate response, blunted, to adenosine, as prognostic indicator in chronic kidney disease, 358
Heart murmurs in infants, diagnosis of tuberculosis during, case report, 274
Heart rate response, blunted, to adenosine, as prognostic indicator in chronic kidney disease, 358
Heart tumors, 92
Hemangioendotheliomas associated with Kasabach-Merritt phenomenon and pulmonary hypertension, steroids for treatment of, case report, 299
Hematuria due to multiple myeloma (MM), case report, 330
Hemihypertrophy in child, infantile hemangioendothelioma with, case report, 243
Hemoglobin measurement, noninvasive, for children with sickle cell disease, Masimo Rainbow, 526
Hemolytic uremic syndrome and urinary tract infection, to increase awareness among clinicians about the rare combination of, case report, 276
Hemophilia, combination immunomodulatory treatment with rituximab for acquired, 525
Hepatitis B associated polyarteritis nodosa with thrombocytopenia, case report, 188
Hepatitis B vs. noninvasive markers of liver fibrosis in veterans with chronic, 537
Hepatocellular carcinoma (HCC), case report, 165, 200
Heparin-induced thrombocytopenia (HIT), case report, 205
Higher blood pressure variability from childhood to adulthood in a biracial cohort, low birth weight is associated with, 120
HIV ELISA, adult acute disseminated encephalomyelitis associated with a falsely serostatus disclosure among HIV-infected crack cocaine users, 338
HIV-related behavior and fatherlessness risk-related behavior and fatherlessness in, 534
HIV serostatus disclosure among HIV-infected crack cocaine users, 506
High protein and high carbohydrate diets,Portal hypertension caused by, 506
Hepatitis C, treatment with interferon and ribavirin for, 525
Histone methylation during kidney development, ontogeny of, 341
HIV attitude of medical students towards persons living with, 384
and crack cocaine users, intimate partner violence in, 534
elderly patients, gender and race effects on risk for selected outcomes among, 540
epidural abscess mimicking lymphoma recurrence in a patient with, case report, 188
epidermolysis bullosa acquisita in a patient presenting with, 539
screening in patients aged 18 to 64, quality improvement of, 576
serostatus disclosure among HIV-infected crack cocaine users, 536
and universal precautions, medical students changing knowledge of, 585
HIV ELISA, adult acute disseminated encephalomyelitis associated with a falsely positive, case report, 51

Heart murmurs in infants, diagnosis of tuberculosis during, case report, 274
Heart rate response, blunted, to adenosine, as prognostic indicator in chronic kidney disease, 358
Heart tumors, 92
Hemangioendotheliomas associated with Kasabach-Merritt phenomenon and pulmonary hypertension, steroids for treatment of, case report, 299
Hematuria due to multiple myeloma (MM), case report, 330
Hemihypertrophy in child, infantile hemangioendothelioma with, case report, 243
Hemoglobin measurement, noninvasive, for children with sickle cell disease, Masimo Rainbow, 526
Hemolytic uremic syndrome and urinary tract infection, to increase awareness among clinicians about the rare combination of, case report, 276
Hemophilia, combination immunomodulatory treatment with rituximab for acquired, 525
Hepatitis B associated polyarteritis nodosa with thrombocytopenia, case report, 188
Hepatitis B vs. noninvasive markers of liver fibrosis in veterans with chronic, 537
Hepatocellular carcinoma (HCC), case report, 165, 200
Hepatitis B associated polyarteritis nodosa with thrombocytopenia, case report, 188
Hepatitis B vs. noninvasive markers of liver fibrosis in veterans with chronic, 537
Hepatocellular carcinoma (HCC), case report, 165, 200
High cost patients, 173
Higher blood pressure variability from childhood to adulthood in a biracial cohort, low birth weight is associated with, 120
HIV ELISA, adult acute disseminated encephalomyelitis associated with a falsely positive, case report, 51

Gadolinium-based MRI contrast, effects of, on organ fibrosis in partially nephrectomized rats, 599
Ganciclovir susceptibility, induced by, arsenic mediated disruption of PML NB, 521
GAPDH, downregulation of, mediates smooth muscle cell apoptosis, 459
Gastric carcinoma, case report, 208
Gastric neurostimulation therapy, clinical presentation and outcome of, for gastroparesis patients, 400
Gastric outlet obstruction, extrarectal involvement of polycystic kidney disease causing, case report, 398
Gastric plasmyctoma, case report, 195
Gastroesophageal reflux disease (GERD) and dental erosions, correlations between, in children, 402
pulmonary nephropathy C in, 551
Gastrointestinal bleeding, risk of, with left ventricular assist devices, 594
Gastroparesis gastric neurostimulation therapy for patients with, in a predominantly Hispanic population, 400
nutritional status in patients with, after receiving enterra therapy, 392
refractory diabetic and idiopathic, pyloroplasty role as an adjunct therapy in, 393
Gender and race effects among elderly patients, gender and race effects on risk for selected outcomes among, 540
general medicine patients at high-risk of readmission within 30 days, 574
Health care funding status, influence of, on overall survival outcome among multiple myeloma/MGUS patients, 522
Health care workers, sleep habits, patterns and problems among, in a tertiary hospital, 596
Health information exchange with EBGs for neuroimaging, in emergency evaluation of, 573
headache, neuroimaging in emergency evaluation of, 573
Healthcare barriers among general medicine patients at high-risk of readmission within 30 days, 574
Health care funding status, influence of, on overall survival outcome among multiple myeloma/MGUS patients, 522
Health care workers, sleep habits, patterns and problems among, in a tertiary hospital, 596
Health information exchange with EBGs for neuroimaging, in emergency evaluation of, 573
headache, neuroimaging in emergency evaluation of, 573
Healthcare barriers among general medicine patients at high-risk of readmission within 30 days, 574
Health care funding status, influence of, on overall survival outcome among multiple myeloma/MGUS patients, 522
Health care workers, sleep habits, patterns and problems among, in a tertiary hospital, 596
Health information exchange with EBGs for neuroimaging, in emergency evaluation of, 573
headache, neuroimaging in emergency evaluation of, 573
Healthcare barriers among general medicine patients at high-risk of readmission within 30 days, 574
Health care funding status, influence of, on overall survival outcome among multiple myeloma/MGUS patients, 522
Health care workers, sleep habits, patterns and problems among, in a tertiary hospital, 596
Health information exchange with EBGs for neuroimaging, in emergency evaluation of, 573
headache, neuroimaging in emergency evaluation of, 573
Healthcare barriers among general medicine patients at high-risk of readmission within 30 days, 574
Health care funding status, influence of, on overall survival outcome among multiple myeloma/MGUS patients, 522
Health care workers, sleep habits, patterns and problems among, in a tertiary hospital, 596
Health information exchange with EBGs for neuroimaging, in emergency evaluation of, 573
headache, neuroimaging in emergency evaluation of, 573
Healthcare barriers among general medicine patients at high-risk of readmission within 30 days, 574
Health care funding status, influence of, on overall survival outcome among multiple myeloma/MGUS patients, 522
Health care workers, sleep habits, patterns and problems among, in a tertiary hospital, 596
Health information exchange with EBGs for neuroimaging, in emergency evaluation of, 573
headache, neuroimaging in emergency evaluation of, 573
Healthcare barriers among general medicine patients at high-risk of readmission within 30 days, 574
Health care funding status, influence of, on overall survival outcome among multiple myeloma/MGUS patients, 522
Health care workers, sleep habits, patterns and problems among, in a tertiary hospital, 596

South Carolina Pediatric Practice Based Research Network on quality improvement of immunization delivery in pediatric practices, 366
secondhand tobacco smoke exposure and smoking cessation in, 361
Speech perception, late preterm infants, 543
Splenic artery embolization in an adolescent, management of varicale bleed by, case report, 168
Spondylarthritides, coronary heart disease prevalence and risk factors in veterans with, 378
Spontaneous bacterial peritonitis and proton pump inhibitors, correlation of, 163
Spontaneous pneumomediastinum in asthmatic patient, case report, 303
Sprague-Dawley hypertensive rats, chronic angiotensin II-infused, increased urinary renin excretion in, 562
Standardized ED order set on time to first dose of antibiotics, pediatric febrile neutropenic patients with, 518
Staphylococcus aureus in an intravenous drug user, case of severe aortic endocarditis caused by, case report, 230
isolates, antibiotic susceptibility testing for, in Louisiana Hospitals, 479
Statin intolerance due statin intolerance due myalgia, clinical and laboratory phenotype of patients experiencing, 106
Statins and abnormal esophageal dysmotility, possible association between, 601
ST elevation myocardial infarction, ECG interpretation in patients with, diagnostic accuracy improvement for, 391
Stevens-Johnson syndrome, T-cell acute lymphoblastic leukemia and ABL1 amplification, dasatinib for, in pediatric patient, 528
T-cell acute lymphoblastic leukemia, Stevens-Johnson syndrome in patient with, case report, 266
T-Cell acute lymphoblastic leukemia, Streptococcus pneumoniae in, increase awareness among clinicians about unusual presentation of, case report, 271
Streptococcus pneumoniae cellulitis in HIV-infected patient, case report, 222
immune defense against, by germline immunoglobulin DH amino acid sequence, 476
Stress-induced hyperglycemia, in critically ill children, acute kidney injury and, 569
Stress response, perinatal oxycodone exposure and the effects on the HPA axis circuit and, 548
Stress ulcer prophylaxis on oropharyngeal flora, effect of, 507
type 6 expression, angiotensin II-induced, 431
tissue plasminogen activator in critically-ill infants and children, percutaneous catheter-directed thrombosis of severe arterial, venous and shunt thrombosis using low dose, 270
toll-like receptor signaling modulation, estrogen receptor alpha regulates the inflammatory response in, toll-like receptor signaling modulation, 344
Systemic lupus erythematosus (SLE) acute pancreatitis, case report, 78
choylus ascites, case report, 63
paediatric mass casualty incident, 351, 486
Thrombocytopenia associated multi-organ failure (TAMOF), case report, 262
heparin-induced thrombocytopenia (HIT), case report, 205
in newborns, the effect of variable platelet transfusion durations on platelet counts in, 349
Stevens-Johnson syndrome in patient with, case report, 266
T-cell acute lymphoid leukemia, 532
Sulf1 and Sulf2, expression of, in idiopathic pulmonary fibrosis, 553
Sunitinib therapy, C-11 methionine PET-CT in evaluating metastatic transitional cell carcinoma response to, case report, 198
Surfactant administration and oxygen use, length of hospital stay in very low birth weight infants in relation to, 284
Swallow-breath interaction and phase of respiration among low risk preterm infants and infants with severe intraventricular hemorrhage, 439
differences in, among term and drug-exposed infants, 438
Systemic lupus erythematosus
TGFβ1 activation, epithelial-macrophage cellular interaction for, in alcoholic lung, 552
Thiopurine induced veno-occlusive disease, persistent thrombocytopenia presenting as earliest sign of, case report, 203
Thoracentesis, physician supervision of housestaff performing, 572
Thrombocytopenia associated with terminal 1Q deletion, case report, 273
Thrombotic microangiopathy, in metastatic renal cell carcinoma, as a result of bevacizumab administration, 529
Thrombotic thrombocytopenic purpura (TTP), case report, 207
Thyrtoxicosis and cocaine abuse, relationship between, 131
in premature infant, case report, 283
Tight junction gene expression, Lactobacillus rhamnosus GG accelerated intestinal barrier maturation by, 353
Tissue plasminogen activator in critically-ill infants and children, percutaneous catheter-directed thrombosis of severe arterial, venous and shunt thrombosis using low dose, 270
Toll-like receptor signaling modulation, estrogen receptor alpha regulates the inflammatory response in systemic lupus erythematosus via, 344
Total parenteral nutrition
glycemic variability on inpatient mortality receiving, 494
with intralipid and olive oil lipid emulsion, comparison of administration of, 493
Trimadol intoxication, multiple-organ dysfunction syndrome due to, case report, 43
Transsphenoidal water loss (TEWL), in late-preterm vs. term infants, skin maturity measured by, 549
Transforming growth factor-β2, in preterm human milk and human milk-based fortifier, 431
Tachypnea, case report, 25
Takotsubo cardiomyopathy, gender differences in, 462
T-cell acute lymphoblastic leukemia and ABL1 amplification, dasatinib for, in pediatric patient, 528
T-cell acute lymphoblastic leukemia, Stevens-Johnson syndrome in patient with, case report, 266
Tetralogy of Fallot with absent pulmonary valve syndrome (APVS), 248
Tetralogy of Fallot with absent pulmonary valve syndrome (APVS), 248
Toll-like receptor signaling modulation, estrogen receptor alpha regulates the inflammatory response in systemic lupus erythematosus via, 344
Total parenteral nutrition
glycemic variability on inpatient mortality receiving, 494
with intralipid and olive oil lipid emulsion, comparison of administration of, 493
Tramadol intoxication, multiple-organ dysfunction syndrome due to, case report, 43
Transsphenoidal water loss (TEWL), in late-preterm vs. term infants, skin maturity measured by, 549
Transforming growth factor-β2, in preterm human milk and human milk-based fortifier, 431
Turner syndrome (TS), case report, 107
Type 1 diabetes mellitus, incidence and severity of diabetic ketoacidosis among children with newly diagnosed, 133
Type 2 diabetics with nephropathy and systemic inflammation, permeability of small intestine wall in, 568
Type 1 glucose transporter, in chronic allograft nephropathy, kidney expression of, 570

U
Umbilical venous catheter (UVC) extravasation, pleural effusion caused by, case report, 292
Unilateral renal agenesis, neonates, case report, 328
Unintended medical events (UMEs) disclosure and documentation of, 182 disclosure and documentation of, HCPs for perceptions regarding, 591
Unplanned readmissions in urban medical center, prediction of, 517
Unremitting rash and fever, case report, 13
Unstable housing, gender-specific correlates of, recent, among HIV-infected crack cocaine users, 535
Urban medical center, predicting unplanned readmissions in, 517
Urea transporters and aquaporins, role of, in nephrotic syndrome associated water retention, 561
Ureteric bud branching morphogenesis, by HDAC 1 and 2 regulation, 355
Ureteropelvic junction obstruction in football player, case report, 9
Urinary nephrin excretion, role of, as a marker of podocyte injury, in diabetic akita mice, 457
Urinary tract infection and hemolytic uremic syndrome, to increase awareness among clinicians about rare combination of, case report, 276

V
Vaginal discharge, case report, 234
Vagus nerve stimulator for children with seizure, sleep apnea after, case report, 260
Varially intensive transitional care (TC) programs, 510
Ventricular blood by splenic artery embolization in an adolescent, management of, case report, 168
Vascular endothelial growth factor inhibition in diabetic kidney by curcumin, 563
Vascular smooth muscle, insulin-like growth factor I enhances collagen and contractile protein expression in, 95
Vasculitis mononeuritis multiplex (MNM) secondary to, case report, 85 presenting as hemoptysis in adolescent, case report, 86
Vasoconstriction, in vivo protease-activated receptor-1 mediated, of canine epicardial coronary arteries, 357
VEGF quadruplex-forming sequence, inhibition of lung cancer cell growth by, 406
Veno-occlusive disease, persistence, persistent thrombocytopenia presenting as earliest sign of thiopurine induced, case report, 203
Ventricular septal rupture after acute myocardial infarction, case report, 93
Ventricular tachycardia with iron deficiency, hypokalemia and hypomagnesemia in association with, case report, 36
Vertebral fractures, comparative efficacy of vertebroplasty, kyphoplasty and medical therapy for, 151
Very low birth weight (VLBW) infants association between PRBC transfusions and NEC in, 550 premature, risk reduction strategy reduces incidence of threshold ROP in, 541 prophylactic therapy with systemic fluconazole impacted fungal infections in, 538
Veterans Affairs Medical Centers (VAMCs), adoption of eGFR reporting among, 593
Vibratory angioedema, case report, 76
Vibrio vulnificus sepsis, case report, 22
Video and hard copy narrative to develop empathy in medical students, efficacy of, 592
Vietnamese Americans, primary care-based community health worker intervention for, diabetes education for, 512

W
Waldenstrom macroglobulinemia with hyperviscosity syndrome, case report, 215
Water retention, role of urea transporters and aquaporins in nephrotic syndrome associated, 561
Weber-Christian panniculitis, case report, 82
West Nile virus (WNV) infection, case report, 236
Wheezing, case report, 19
Whole blood thromboelastometry, performance characteristics of, in liver disease, by detecting thrombin and fibrin formation, 405
Wnt signaling pathway directly regulated by p53 in the kidney, genome-wide microarray coupled with ChIP-Seq to identify, 565
Wolff-Parkinson-White syndrome type ventricular pre-excitation, case report, 35
Women cervical screening and HPV vaccination in, 595
postmenopausal Mexican American, diagnosing osteoporosis in, 606

Z
Zinc dyshomeostasis during isoproterenol-induced acute stressor state, 345
